

Wireless inspection camera
for installations up to 150 kV

Brings the invisible to light

The wireless inspection camera enables safe inspection of switchgear installations and overhead contact lines with nominal voltages up to 150 kV / 15 to 60 Hz without disconnection or the need for special training.

Advantages for you at a glance

Brings the invisible to light. Detect dirt and damage with the help of live photo and film images transmitted by the inspection camera.

Increases safety. The electrician can stay outside the danger zone by attaching the camera to an insulating stick.

Documents system condition. Easy creation and archiving of photos and films as documentation.

Saves time. No disconnection of the system during inspection is necessary.

Suitable for maintenance of electric railways. The inspection camera can also be used to examine overhead contact lines.

Safe inspection.

Easy handling with radio link to smartphone or tablet.

Check the installation in detail.

Optional: the macro lens, can identify and document even the smallest signs of damage.

Control by voice.

The camera can also be operated via voice control.

Inspection camera available as a complete set

The wireless inspection camera is available as a complete set in a case. The set consists of a camera with battery, USB cable, housing, adapter with gear coupling, and transport case.

Technical data - Digital Camera Set **)

Type SET DIGIK AC2

Part no.	766 480
Nominal voltage	up to 150 kV
Frequency	15 / 60 Hz
Resolution	12 megapixels
Image stabiliser	electronic
Formats	JPEG/RAW and MP4
Ext. SD card *)	microSD (max. 256 GB) *)
Equipment	remote control via app
Voice command	yes
Battery life	max. 180 minutes
Interface	USB type-C

*) Handle, insulating sticks and micro SD card are not included.

**) System requirements: Android version v8.0 or iOS version v12.0 and higher

Accessories

Handle with gear coupling

G ZK 230 up to 1000 V / 15 to 60 Hz and 1500 V / DC Part No. 766 393
G ZK 230

Macro lens for close-ups

Type MO Part No. 766 483
DIGIK AC2
